INVESTOR SUMMARY

Book any hotel by simply describing your trip.

myservice Inc. is an AI-first online travel agency with live rates on 3.4M+ properties in 220+ countries. We are raising a $150,000 pre-seed.

3.4M+	1.05M	50K–100K	250+

01 Problem

Booking travel still means a dozen tabs and filters that do not understand what you want. In emerging markets, global OTAs also lack local payments, local support and small local providers.

02 Solution

An AI travel agent: describe the trip in plain language and it searches, compares and books. Live rates on 3.4M+ properties in 220+ countries through our global hotel supplier.

03 Traction

2025	Local marketplace: 250+ partners, PKR 1.5M+ in direct bookings
Jan 2026	Contracted with a global hotel supplier
Jul 2026	Delaware incorporation; first customer booking on global supply
Oct 2026	5 customer bookings on global supply, partner programme live

04 Business model

≈5% commission on hotel bookings today (actual, first bookings). Marketplace commission, advertising and corporate travel are the next revenue lines.
