01 The programme

Creators, influencers and marketing agencies who bring travellers to myservice earn cash, commission on every booking, and a share in the company.

myservice is an AI travel agent: travellers describe the stay they want, and our conversational AI finds and books it from 3.4M+ properties in 220+ countries. Partners bring travellers to myservice and share in the growth.

02 Who we work with

PARTNER	DESCRIPTION
Travel creators & influencers	Instagram, TikTok and YouTube creators, travel bloggers and podcasters whose audience plans trips.
Marketing & performance agencies	Agencies that run paid social, search, influencer or content campaigns for travel and lifestyle brands.
Strategic partners	Travel media, communities, airlines, wallets and other businesses that can reach travellers at scale.

03 What you earn

REWARD	HOW IT WORKS
Cash: Paid for agreed work	A fixed fee for each agreed campaign or piece of content, or a monthly retainer for agencies.
Commission: 3–5% of every booking	Every hotel booking made within 60 days of someone opening your link earns you a share of the booking value once the stay is complete: 3% for creators and influencers, 5% for agencies.
Equity: A share in myservice	Selected partners receive shares from a 2% partner pool. Shares vest as you hit agreed milestones, so ownership grows with results.

01 Why partner with myservice

	WHAT IT MEANS FOR YOU
Own part of what you help build	OTA affiliate programmes pay a commission and nothing more. Selected myservice partners also earn shares in the company, vesting as results come in.
Paid for your work, not only for sales	Affiliate links pay only when someone books. We pay agreed fees for your content, so a post that inspires but does not convert still earns.
A product made for content	Travellers describe their trip and our AI finds the hotel, explains the picks and shows them on a map. Screen-record it and you have a reel. Share a trip plan and followers can book from it.
Your own page and dashboard	A public creator page with your favourite hotels and trip plans, and a dashboard with visits, bookings, commission, equity progress, QR codes and a link builder.
Early, close partnership	Not one of a million affiliates: a direct line to the founder, a say in the product, and the best terms reserved for founding partners.
Built for your audience	Focused on travellers from South Asia and the Middle East, with live rates on 3.4M+ properties in 220+ countries so every follower can book.

Use your main link, a link straight to the AI travel agent, or build a link to any page on myservice: a city, a hotel or a search. Each comes with a QR code you can download for stories, print and events.

Links & QR codes, with the link builder turning a Dubai city page into a tracked link.

02 Your creator page

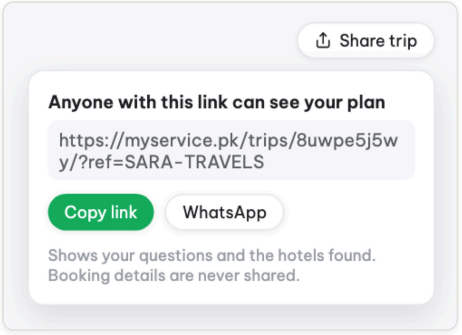

Set up a public page at **myservice.pk/creators/yourname** from the dashboard: photo, short bio, social links and up to 12 favourite hotels. Your shared trips appear on it too, and every link on the page carries your code.

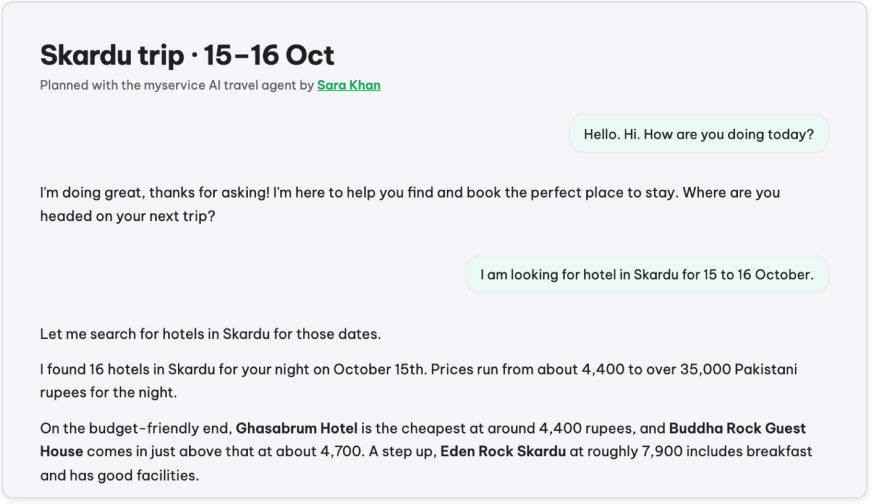

A creator page with bio, social links and favourite hotels across Dubai, Istanbul and Skardu.

01 Turn a conversation into content

Plan a trip with the myservice AI travel agent while signed in to your dashboard, then press **Share trip**. You get a public link to the plan that you can post in your bio, stories, videos or WhatsApp groups. Followers see your questions, the AI's answers and every hotel it found, and can book from there. Bookings are credited to you.

Press Share trip in the AI chat. The link already carries your code.

What followers see: the plan, titled from the destination and dates, with your name.

02 Privacy

- Only the planning part of the conversation is shared. Anything from the first booking step on is left out.
- Email addresses and phone numbers are removed from the shared text automatically.
- Live booking sessions are never included, so nobody can book your held rates.

03 Ideas that work

FORMAT	EXAMPLE
Reel or TikTok	Screen-record the AI planning a family weekend in Dubai under US$150 a night, then post the shared plan link.
Story with QR	A QR code to your creator page on a story or a printed card at a meet-up.
Guide or blog post	Embed links to the exact hotels from your favourites, each built with the link builder.
WhatsApp group	Share a trip plan for an upcoming holiday; everyone who books from it is credited to you.

02 How it works

STEP 1
Apply
Tell us about your channels and audience. We reply within five business days.

STEP 2
Agree terms
A short call, then a partner agreement setting your fees, commission and any equity milestones.

STEP 3
Get your link and dashboard
You receive a personal link such as myservice.pk/?ref=YOURNAME, our brand kit and a partner dashboard with QR codes and your own creator page.

STEP 4
Earn and vest
Get paid for content, earn commission on bookings, and vest shares as milestones are met. Your dashboard shows every visit, booking and payout.

03 How commission works

When someone opens your link, your code is remembered on their device for 60 days. Any hotel they book on myservice in that time, on the website or through the AI assistant, is credited to you.

STAGE	WHAT HAPPENS
Booked	The booking is recorded against your code as pending.
Confirmed	The hotel confirms; your commission is calculated.
Payable	The day after the guest checks out.
Paid	Monthly, with your statement.
Reversed	If the booking fails or is cancelled, no commission is due.

Example
A follower books 3 nights in Dubai for US$300. A creator earns US$9.00 (3%) and an agency US$15.00 (5%), payable after the guest checks out. 100 such bookings a month earn a creator US$900 in commission, on top of content fees.

01 Equity that vests with results

Equity is earned, not given upfront. Each grant is split into milestones agreed in advance, and shares vest only when a milestone is met.

MILESTONE	SHARES THAT VEST
100 confirmed bookings from your link	1,250
250 confirmed bookings	1,250
Campaign series delivered and approved	1,250
500 confirmed bookings	1,250

Example for a creator grant of 5,000 shares. Milestones must be met within 24 months; anything not met by then lapses.

02 Example: shares vested over time

- Shares are common stock of myservice Inc., a Delaware corporation, granted from a pool of 200,000 shares (2% of the company).
